PRESIDENT'S REPORT

Hi all,

Not much social activity these last few weeks as we have been preparing for Austin's over Australia Don't forget that Austins Over Australia is coming up at Easter (Easter Sunday is on 31 March). Please keep in touch with Don Jones who is our liaison manager for the event. The event will be in Victoria this year – in Bendigo .Log onto the Austin A40 club's website for updates and details. Even if you can't attend the whole weekend, day trips to Bendigo can be made to catch up with interstate members from the Austin fraternity.

Our club meeting in February was well attended and we enjoyed a night of fun and good company.

The committee have completed the event calendar for 2013 and this will be released progressively to give members ample notice of future events.

Please remember that the new oil filter adaptors for 803 cc engines are available. We have a limited quantity so please contact Don Jones or myself to reserve one. The spare parts project is going from strength to strength and we have had to purchase another pallet rack to cope with the added quantity.

Please contact Don or myself if you are chasing that elusive part as we may be able to help you.

Looking forward to meeting all AOA attendees at Easter.

Brian Brooks

A30 CLUB SPARES PROJECT

The Austin A30 Club Spares Project is up and running!

We have collected a good range of parts and they are stored safely in a warehouse.
If you need a part, contact:

**Don Jones on 0427 392 219 or
0413 304 585**

Brian Brooks on

If you have parts to donate – or have parts that you may want to sell – please let us know so that we can either purchase on behalf of the Club, or include them in our spreadsheet and put you in touch with a buyer when we receive an enquiry.

Please don't leave those unwanted parts lying around! They may be of use to someone else and help with the running of their car.

AUSTIN A30 ENGINE OIL FILTER ADAPTORS NOW FOR SALE

15th JANUARY 2013

The original oil filter for 803 cc engines is in scarce supply and the club has had special adaptors made so that a readily available spin oil filter can be utilised.

These adaptors have already been used successfully overseas and we have improved and modified the original item and now offer them for sale to club members.

The cost of the kit is \$60 which is significantly less than having to import from overseas.

The kit includes the adaptor, a seal and a Ryco Z418 filter - which is readily available from suppliers such as Repco, Bursons, Autobarn etc. A comprehensive fitting instruction comes with the kit.

This is a club initiative to assist you the member so please support us as a lot of research and development has gone into this project.

For sales contact Don on 0427392219 or Brian on 0413304585

On the Road

with Bob Laughton

G'Day,

Been flying the flag with the flying "A" this month. First Sunday we drove to Bacchus Marsh. A 12 hour less 20 minutes and 300 miles less just a couple. Left home at 6.15am calling on Graeme at Murchison . He drove his mini pick up. A lovely morning to drive to Murchison to Seymour, taking the Puckapunyal road then to Pyalong, then onto Lancefield, Monegeetta, Gisborne, Bacchus Marsh.

Near Lancefield while travelling about 10 seconds behind Graeme a "Big Red" jumped straight over the ute tray . I thought he was coming in the cabin with Graeme. The show was good ,locals say the Best show ever at Bacchus Marsh . Less than 30 vehicles , a dozen trucks, 20 motor cycles. The star of the show A 1904 "Innes" (Australian made). I did not get any info on it. I wish I had. A Fargo farm truck was a great display-lots and lots of money thrown at it . Good , but the best display was the 1940 La Salle coupe a real lovely car (Cadillac). An A30 of Fred and Lorraine Zarafa, Austin Healy Club and Ford GT 40 clubs were good and a 3 wheel Bond English Rego 12. A bit rough but a good display. Plenty of Yap, Yap tec. A good day in general. Queue 1 hour for an ice cream Ha Ha . Salad sandwich good. Home again , along day and just Less than 300 miles. Plenty of onlookers . A warm to hot day . All good.

The next Sunday was hanging rock. We left early again to Lancefield then onto Hanging Rock Car Show. Quite warm, but going over the Great Divide it was cooler. Only in shorts and TShirt we came in the entrance and a lot of cars just crawling along. Some boiling. It was getting warm. It was estimated about 3000 Cars. That's a stab in the dark I think. But you have the idea. It was a hot day . Lots and lots of Holdens, Fords, and USA imports LHD. All good not too many English or European cars. Terese James followed us from Lancefield in her convertible.

ON THE ROAD CONTINUED

Another 2 A30's from Ballarat area (not club members) plenty of Yap Yap. Looking under the bonnet it was a busy day.

I parked next to a Cadillac , flags flying , radio turned up , a great car.

No lookers walked straight past –It's the old saying it' not the size of the dog in the fight. Home again warm this time it is 12 hours again. Only 20 Miles less 4 miles . The A30 must be running "OK". No noise Ha Ha , as Imee slept most of the time down and back both times.

AMERICAN UTE

TERESE JAMES
CONVERTIBLE

Last Sunday a car show at Shepparton, easily the best of the shows, probably 300 cars not all GT's Holdens and American in the minority. More than a dozen bikes , an Indian being the best. Crikey it's hot , no shade is a problem. I must Have got over heated as Graeme rang an Ambulance. I was out to it , but woke up in time to cancel the call. I was feeling lousy and sat in the back seat (only Shade) with some cold drinks and ice. I quickly came good .

I spoke to Jim Richards of racing car fame. He stuck his head under the bonnet. I think surprised not to see any SU Carby. NO just the original single down draft type zenith . We left to come home early . It was stinking hot . Graeme followed me home. Imee made a cup of tea and scones. I came good . How could I pick a car out of this bunch? I thought a 49 Bentley the best. An older Alvis tourer something like Thorpe's was good. I hope they have it again next year.

ON THE ROAD CONTINUED

On the home front well Locky has a date to go in the services. A couple of days after his 19th Birthday. The last couple of games of basketball were good winning both, but in the finals he had a good season. Imee looking to coach the tiddlers again at Tatura. The McIntosh ranch is hoping for an Italian import.
. A Vespa .

I went down to Melbourne last Sunday and came home with a Mercedes Benz- only an old one. Still hardly any rain up in the Goulburn Valley. Locky just working at the Chinese restaurant and fruit packing shed during the day.

That's my lot .

Drive Ya Austin into the ground if need be. No one can enjoy them in the garage.

G'Day BOB.

Did you read about the Aiustin from Ballarat (Not a Club Member) in this months RACV magazine. A good write up It's a TV star. Lovely !!

BOOKS & DVDs AVAILABLE FROM THE CLUB LIBRARY

AUSTIN 100 YEARS 1905 to 2005 DVD at Scienceworks displaying cars to celebrate 100 years of the Austin Motor Co. This DVD was put together by Tom & Dot de Mille productions and displays all cars in attendance. A good coverage of the event with voice over from the dulcet tones of Dot .

AUSTIN A30 SERVICE MANUAL. We have a few copies of this manual. It covers all you need to know about your A30 and provides good technical tips to make the task easier.

MEN AND MOTORS OF THE AUSTIN by Barney Sharratt. Barney is a noted Austin expert researcher and this book goes behind the people who worked at Austin It tells a wonderful tale of the people who worked at Austin together with the benevolence of its founder Herbert Austin. The Austins produced at Longbridge were some of the best produced cars of the time and this book provides an insight into the reasons why they were such good cars.

POST WAR BABY AUSTINS by Barney Sharratt. Another book by Barney. If you have not read this book ,you know very little about the Austin A30.This is a good read loaded with lots of good pictures and good detail. It will make you appreciate the durability and excellent engineering that went in to producing a low cost car that did not cut corners in regard to quality.

A TUNING THE A SERIES ENGINE by David Vizard. This book is loaded with lots of technical detail about the A series engine put together in a very easy to understand format. Even if you don't want to modify your engine , this book provides some excellent advice on minor tuning improvements that can make your car perform better and be more pleasant to drive.A good read.

PLEASE NOTE THAT THE CLUB WILL SEND POST FREE TO ANY COUNTRY OR INTERSTATE MEMBERS ANY OF THE ABOVE ITEMS FOR THE REMAINDER OF THIS YEAR .

YOU CAN ALSO REQUEST OTHER BOOKS FROM THE CLUB LIBRARY – JUST CHECK OUR WEB SITE : www.austina30.net.au FOR DETAIL AND WE WILL FORWARD TO YOU.

A MAXIMUM OF TWO BOOKS CAN BE OBTAINED (EITHER ONE AT TIME OR TWO TOGETHER) DURING 2013. THE CLUB MEMBER CAN HAVE THE BOOK FOR A 4 WEEK LOAN AND THEN PAY FOR THE RETURN POSTAGE.

PLEASE USE THIS SERVICE AS IT IS PROVIDED FREE BY THE CLUB AND WE WANT EVERYONE TO SHARE IN THE CLUB'S RESOURCES. MANY OF THE BOOKS IN THE LIBRARY HAVE BEEN GENEROUSLY DONATED BY CLUB MEMBERS.

Contact Jim Fowler our librarian on 03 94397971 for loan services.

What is leather?

Leather is produced from animal hides. Hides cannot be used in their raw state and have to be "tanned" to preserve them. These processes take many months to complete which is why leather is relatively expensive and hence worth looking after. Leather used in the Upholstery trade is all produced from cow hides, a typical hide being between 45 and 60 square feet in area. Since leather is a natural product a typical hide will display blemishes in the form of scars caused by insect attack, barb wire or other injury and is also "flat cow" shaped! This results in a normal allowance, for waste, of approximately 20% which further increases the actual cost of the usable material.

Routine Care.

If your Austin has been re-trimmed or your original leather is in good condition it will benefit from being fed every six months or so with Hide Food. This comes in the form of a rich cream and, providing the leather is clean, should be rubbed in sparingly using a clean soft cloth. The leather will quickly absorb the cream leaving it supple and strong.

CARE FOR
YOUR
LEATHER
UPHOLSTERY

Neglected Leather

If the leather on your car/restoration project is original and basically intact but dry and brittle due to neglect or poor storage then it may be possible to breathe some life in it to retain originality. In any case any repairs will always be easier if the leather is clean and supple. Beware! Dry brittle leather is very easily damaged!

The leather will first need to be cleaned. This should be done using a weak solution of warm water and a mild detergent. Gently clean the surface taking care not to soak the leather. Allow to dry naturally. Once it has dried it can be fed using a good quality Hide Food. This should be gently worked into the dry leather. A number of applications will be necessary to allow the feed to penetrate and soak into the fibres of the leather. It could take several weeks of feeding before the leather regains its suppleness.

Colour Restoration

If your leather trim is generally in good condition but the colour has faded or worn through exposing the natural colour this can be remedied using a colour renovation kit, matched to an un-faded sample of your original leather. The colour matched kit contains a special cleaning fluid and a combined dye and hide food solution.
